Vietnam, a tragedy overlapped with an American nightmare, divorÃÂ³ to one president (Lyndon Johnson) and contributes to the fall of another (Richard Nixon). Massacres and atrocities Hastings, author of a large biography full of prizes, livesÃÂ³ the Vietnam War in his own meats. AterrizÃÂ³ in Saigon as a correspondent in 1971, with 24 aÃÂ±os, but his story is not a memory of what he saw, but a unique Â³ crÃtica about the main decisions that led to the tragedy and a human account of the difficulties and atrocities suffered by civilians. Because©, as the journalist had well said, this conflict was "the bloody mystery" of the post-World War II era. And this dismal label is being helped by the succession of well-known massacres, such as My Lai, or the ongoing napalm attacks. Hastings, however, points out the atrocities Committed by communist fighters, much less aerated. The North Vietnamese and the Vietcong, in their maximum limit of sadism, have come to bury alive the civilians who defined as "enemies of the people", that is, the landowners. Bullets were reserved for the imperialist enemy, according to the testimony of a survivor. An American consultant George Bonville recalls a 1966 episode in South Vietnam to reflect the terror of Vietnam: a car³ graph of the barracks named Anh habÃa Ã was assaulted overnight in his parents' house. They beat him in the head with a rifle and killed his brother at puÃÂ±aladas for refusing to cooperate in an attack against the Americans.
